Dear Mr. Townes,

Thank you very much for your presentations today!
They were wonderfully inspirational for the students
on a tough teaching day. Here are my comments:

I would highly recommend use of this program to any
secondary level teacher, especially a teacher of the
upper grades. This voting simulation encourages
upper-level learners to get out of their seats and
move around, and also encourages them to share their
opinions and to find their "voices." Not only are
students enthused and mobile, but this simulation also
talks about the very real issues of representation,
having one's vote matter, participating in one's
government, etc. and the students are talking about
very real and current issues that affect each one of
them. This exercise really gives students a concrete
realization of the electoral process.

Once again--thank you so much for this simulation, and
I look forward to using it in the future. If I can be
of any further assistance, please don't hesitate to
ask.

Most sincerely,
Lydia Caprarella
